

EEMUA Bulletin

EEMUA representative appointed as Convenor to European standards group

Jan de Jong has been appointed as Convenor of the work group within CEN (European Committee for Standardisation) looking to update EN 14015, which covers the design, construction and testing of above ground storage tanks at ambient temperatures.

Jan is founder and Chief Executive of D&C Engineering, an EEMUA Associate company. He is highly regarded in the subject of storage tanks and has worked as a consultant for EEMUA for many years. Jan is Chairman of our Storage Tanks Committee and leads our European TankAssessor[®] competency scheme, which has achieved worldwide recognition across industry. D&C Engineering will be celebrating 25 years in business on 4 June 2010.

As part of its operating structure, EEMUA has representatives sitting on numerous national and European committees and work groups looking into and developing standards related to engineering topics. As an EEMUA representative, the role is to monitor the work programmes and report back on relevant items and activities for consideration by the appropriate EEMUA committee and/or work group. ■
